RAJAN KUMAR

CYBERSECURITY · AI / ML ENGINEERING · FRESHER

Sitamarhi, Bihar | +91 7970384336 | rsjankumar23105@gmail.com | LinkedIn | GitHub | Portfolio

PROFILE

Final-year Computer Science undergraduate (fresher) building a foundation across networks, cryptography and applied AI/ML. Completed project training at BSPTCL analysing a critical-infrastructure malware case, and an AI/ML internship at NIELIT. CCNA-trained; builds full-stack products and security tooling. Seeking a cybersecurity or AI engineering role.

EDUCATION

B.Tech, Computer Science & Engineering — Expected 2027

Sitamarhi Institute of Technology (Bihar Engineering University) | CGPA: 7.69 / 10

Class XII (Science): 67% | Class X: 65%

PROJECTS

CyberShield — Cybersecurity Threat Detection System — Python, Scapy, Flask, scikit-learn

- 8 rule-based detectors (port scans, SYN floods, brute force, DNS tunneling and more) mapped to MITRE ATT&CK, plus an Isolation Forest model flagging traffic anomalies; malware analysis and a live Flask + Socket.IO dashboard with a REST API.

CampusConnect — College Community Platform (live) — React, Node.js, MongoDB, Claude API

- Full-stack MERN platform (53 commits): notes sharing, lost & found, events, marketplace and placement analytics. JWT auth with role-based access, Cloudinary uploads, admin panel and Claude-powered study tools.

SKILLPRINT — Career Intelligence Platform — TypeScript, Express, SQLite, React

- Turns logged learning evidence into capability estimates, skill-gap analysis, readiness scores and missions. Cookie/JWT auth with rotating refresh tokens and CSRF protection; Chrome extension with offline-tolerant batched sync; unknown data kept as a real state, never coerced to zero.

Emergency Help Network — React, Node.js, React Native, Socket.IO

- Real-time emergency platform (36 commits) across backend, web dashboard and mobile app: SOS alerts, live location tracking, emergency contacts and responder coordination.

Blogspace — Full-Stack Blogging Platform (live) — React, Node.js, Express, MongoDB

- Responsive blogging platform with authentication and a REST API for creating, editing and managing posts; deployed on Vercel.

INTERNSHIP & TRAINING

Intern — AI and ML using Python, NIELIT Gorakhpur (Online) — Mar – May 2026 (90 hrs)

- Python, database connectivity, Tkinter GUIs, speech recognition, NumPy/Pandas/Matplotlib; core ML, deep learning and NLP concepts. Graded S (80%+).

Project Trainee — IT Department, BSPTCL, Patna — Jun 2025 (4 weeks)

- Project training on real-time case studies in critical-sector security, focused on the TRISIS malware attack (2017) on industrial safety instrumented systems.

SKILLS

Languages: Python (Advanced, 2+ yrs), JavaScript / TypeScript, Java / Kotlin (Intermediate), C, C++, HTML, CSS
Web & Full-Stack: React, Node.js, Express, MongoDB, SQLite, Flask, Socket.IO, REST APIs, JWT auth, Expo / React Native
Security & Networking: Computer Networks, Cryptography & Network Security, Scapy, MITRE ATT&CK, CCNA (3-course track)
AI / ML: Machine Learning (scikit-learn), Deep Learning, NLP, NumPy, Pandas, Matplotlib, LLM API integration
Core CS & Tools: DBMS, OS, DSA, Compiler Design, Blockchain, IoT, Linux, Windows

CERTIFICATIONS

- NPTEL (IIT Kharagpur): Blockchain and its Applications (Elite, 65%, 2026); Introduction to Internet of Things (58%, 2025)
- iHUB DivyaSampark, IIT Roorkee × Govt. of Bihar: Internet of Things, 40-hr program (Mar 2025)
- Cisco Networking Academy: CCNA (Introduction to Networks; Switching, Routing & Wireless Essentials; Enterprise Networking, Security & Automation); Python Essentials 1 & 2; C++ Essentials 1; Introduction to Modern AI; Introduction to Data Science; Find Insights with AI; Operating Systems Basics (with Linux, Windows and Mobile OS modules)
- NASSCOM × Skill India Digital Hub (1-hr participation, Oct 2026): IoT Security Analyst; Network Security Engineer
